## THE INDIANA TRUST CO

OFFICE-23 S. Meridian St.

## Capital, \$1,000,000

Good advice is needed in making a will. Careful custodianship is not all. A will wisely made is as important as a will well made. And a wise will is not a matter of sentiment. One may bequenthe an estate as one ikes, ministering to all of the dictates of affection, and yet do so unwisely in terms and conditions, and mar it by faulty cus-

todianship. THE INDIANA TRUST COMPANY onsults and advises at any time as to the making of wills freely, and fully, on any and all points, and this as a matter entirely separate from executorship. But it also acts as exeeutor, guardian and generally in all relations of trusteeship.

## LIVELY DAY IN STOCKS

FAILURE OF WHISKY TRUST TO MAKE ITS LOAN UPSET THINGS.

Sugar Stocks Again Active, Leading the Market-Indianapolis Grain Unchanged Since Last Week.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 3/351/2 per cent. Sterling exchange was dull, with actual business in bankers' bills at \$4.86% for demand and \$4.85\2@4.85\4 for sixty days: posted rates, \$4.86@4.87 and \$4.87@4.88; com-

mercial bills, \$4.841/664.8434. Silver certificates, 66%c; bar silver closed at 66c per ounce; Mexican dollars, 52%c; at

London bar silver closed at 3034d. The total sales of stocks were 264,362 shares, including: American Sugar, 35,500; Burlington, 20,200; Chicago Gas, 2,200; Chesapeake & Ohio, 9,900! Distillery and Cattle Feeding, 28,800; General Electric, 2,800; Louisville & Nashville, 12,400; Northern Paclfic, 2,700.

Yesterday was an exciting day on the Stock Exchange, by reason of the speculation in the stock of the Distilling and Cattle Feeding Company. It was generally understood at the close of business on Saturday that the funds required to take the company's spirits out of bond had been practically assured, and that impression prevailed at the opening of business this morning. There was consequently a brisk demand for the company's stock, which sold up to 2214 on the opening dealings, a gain of 2 per cent. on Saturday's closing. Very soon, however, came reports of a hitch in the loan negotiations, and on the announcement by Russell Sage that they had fallen through a break to 19% was made. The trust people themselves, how-ever, refused to speak on the subject, and the traders came into market to buy at the decline, sending the price up to 20%. Not for long was the improvement maintained, a very uncertain feeling being apparent among the operators in the stock, and on confirmatory reports that the attempt to make the loan in this city was a failure the price moved down to 1812, a decline of 334 from the highest of the morning and a break of 61% per cent. from the top figures of Saturday. Purchases to cover short contracts caused a recovery in the final dealings of 14 per cent., the last sale being made at a figure only ½ below Saturday's final prics. It was not known at the close of business whether the company had given up the fight for the loan, for, aithough it had been abandoned at New York, there was a possibility that the

movement might yet be successful in the West, and, in fact, it was said that some \$2,000,000 was secured in Chicago. Speculation in Sugar was fairly active, but somewnat feverish. An early advance of % was quickly lost, and a decline of 31% was effected on the sale of a big block of the stock for the purpose of taking profits. There were no supporting orders in the market while this liquidation was in progress, nor was there, on the other hand, any unfavorable news regarding the shares, and when the transaction was completed the stock moved up 1%, to 113, with a sub-sequent reaction of %, making a decline of 1% on the day. Little was done in the other industrial shares, except the movement which resulted in an advance of 11/8 in National Starch, % in Chicago Gas, 1/8 in General Electric and 21/4 in Laclede Gas preferred. Tobacco sold up 2 per cent. in the morning, to 107, dropped to 103, rallied to 105, and closed at 104, a net loss of 1 per cent. Lead preferred recorded a decline of

In the railway list the trading was generally firm, with occasional reactions in sympathy with the depression in the leading industrials. Most of the shares dealt in appreciated in value, and at the close a firm tone prevailed and a general advance was established, ranging from 1/4 to 11/4 per cent., the latter Louisville & Nashville: 12/4 in Northern Pacific preferred, 1½ in Pittsburg, C. C. & St. Louis, 1¼ in Burlington & Quincy, 1 in St. Paul, Denver & Rio Grande preferred, Norfolk & Western preferred and Ohio Southern, and % in Western Union. Exceptions were Lake Shore, which shows a decline of 1 per cent.

The bond market was unsettled during the day, but the main tendency was toward higher prices. The transactions were large, aggregating \$1,303,500. The more important changes were: Advances-Northern Pacific firsts registered, 24; Northern Pacific coupon threes, 11/2; Peoria & Pekin Union seconds, 11/2; Illinois Central fours of 1953, 11/4; Wisconsin Central firsts, New York, Lackawanna & Western firsts and Hocking Valley fives, 1. Declines-Northern Pacific sec-onds, 14; Atchison, Colorado & Pacific firsts, 1; Reading first preferences, 1 per

LOCAL GRAIN AND PRODUCE. Trade More Active Than Last Week,

with Prices Weak. The week opens with a more active trade, and in many lines lower prices are indicated. Receipts of both Irish and sweet potatoes are large and prices easier. Onions, cabbage, apples and all kinds of meions are in abundant supply and prices regulated by the size of the purchase. Good Irish potatoes sold yesterday as low as 50 cents and sweet potatoes at \$3.25 a barrel. Some very fine apples are now offered at \$2.50@3 per barrel. To get over that figure they must be extra choice. Eggs are firmer at quotations. Poultry easier, but not quotably lower. Grocers had a good trade yesterday. Sugars firm. In provisions a good deal is doing, with firmer prices prevailing. The drygoods market is still rather quiet-fall goods not selling well. The flour market is more active, but quotations of several weeks past fully cover the market. The local grain market yesterday was quiet, attendance on 'Change small and the bidding tame. Track bids ruled about as

Neglectful Contractors.

To the Editor of the Indianapolis Journal: It does little good to complain to contractors who are making street improvements for their neglect of the rights of citizens generally and property holders in particular along their line of work. It is an outrage to have to pay one-third of the assessment along Alabama street for the sole benefit of the street-car company, but it is a greater outrage on the citizens to have the pitfalls made by excavations in all the alleyways and street crossings of Alabama street left unguarded. Last Saturday night, out of the several hundreds that had to cross the plt going to market at the corner of Alabama and Miami streets, at least twenty had hard falls, several spilled the contents of their baskets and some were badly bruised, all owing to the neglect of the contractor to put up a light and lay two boards for a crossing. The police know these things and so should the various inspectors, but nothing has or will be done. Who will have to pay for the broken leg or neck that will be caused by this pitfall CITIZEN.

A Street-Car Patron's "Kick."

To the Editor of the Indianapolis Journal: I am not a chronic grumbler; neither am I a blackmailer who will "rip things up the back" if I don't get what I want. But I have a gentle "kick" to register. I believe the street-car service of Indianapolis, except on one line, is far in advance of any other city in the country. That line is the one that runs out Fletcher and English avenues. Cars are supposed to run every fourteen minutes, yet five times last week I waited from twenty to twenty-five minutes for a car. Yesterday evening I stood on the corner of Washington and Pennsylvania streets from 5:15 to 5:45 o'clock before I could get transportation. While I was standing there seven College avenue, four East Washington, four Virginia avenue, three South East street and two Irvington cars and trains passed. These are all I kept track of, but they were enough to show that some parts of the city do not lack for service. Complaint is general in the southeast portion that the cars run irregularly and too far apart. If the company could make the English-avenue a tenminute line and keep the cars on time it would please its patrons.

Distressing Prospect.

UNABLE TO HOLD UP

WHEAT INCLINED TO FIRMNESS, BUT THERE WAS TOO MUCH SELLING.

Loss of from 1-Se to 1-4e in All Descriptions of Grain with Provisions Scoring Small Gains.

CHICAGO, Aug. 27.-Wheat was inclined to be firm to-day, but was met with free selling on the hard spots and closed 4c lower for December. Corn closed 1/30 lower for May and September. Oats finished 4c lower. Provisions closed with a slight

Wheat opened strong at from 1/4c to 1/4c per bushel over Saturday's closing quotations, the strength coming from the steady cables. December was wanted at from 57%c to 58c, but weakened on liberal offerings at the advance and sold off to 571/c. It had another good strong spell when the visible supply figures were giving promise of disappointing the bears, but became weak after the bears' apprehension regarding the visible had been fully realized. The trade was too light to take enough of the offerings of short wheat, which were for sale from the seaboard speculators, and, although the news of the day was in the main bullish, the shorts were more inclined to sell more on the slight bulges than to take alarm and cover previous sales. The visible supply increased 870,000 bushels, or 1,000,000 bushels less than many were looking for. The estimate of the Vienna congress on the wheat and rye crops of Europe was the only really bearish feature of the day's news. The estimated receipts of wheat for to-morrow at this place are 380 cars, but the market continued to rule weak after its early slight advance due to the small increase in the visible. December was down to 571c at the close.

The corn market acted firm, but not very active. The receipts were rather over the

estimates, but the news from the country continued to bring prominently forward the great damage to the corn crop. Commission houses, however, with Western connections said their correspondents gave worse accounts of the damage than any previously received. The quantity on ocean passage decreased 616,000 bushels during the last week and the visible supply increased 1,000 bushels last week. The country holders of May corn did not show any disposition to sell and the local opera-tors, while generally feeling bearish, were disinclined to sell much short. September opened at 551/4c and closed at 551/4c

Business in oats was quiet and prices asier. The disposition to trade, buying or selling, was limited and the market dragged slowly along after corn. September started steady at 30%c, touched 303sc and at noon had declined to 30c, closing at that figure. The provision market was moderately active and for the most part firm. The

packers were good buyers of the September and October deliveries and appeared also to have already disposed of all the January product they are at present inclined to part with. The closing prices show gains in the September deliveries of 5c in pork, .121/5c in lard and .10c in ribs.

January pork is 71/2c higher, lard unchanged and ribs .05c higher.

NEW YORK, Aug. 27.-There was a very good renewal of the demand of last week at the opening of the day that increased steadily throughout and gave to the market a good degree of activity and returned a large total of sales. From traveling salesmen and from principals direct there was a very good quota of orders, and the engagements reached in this wise were largely enhanced by those in the hands of resident agents of out-of-town houses. The demand was generally for all kinds of goods, with printed calicoes in the lead. Agents have advanced the price of kid cambries and solid prints 1/3c and American bags 4c. Print cloths strong at 24c bid. and declined.
